

Assessment of Latvenergo AS donation directions

% ■ Very positive ■ Rather positive ■ Rather negative ■ Very negative ■ Hard to say

The survey was conducted by the research company Kantar from 20 to 28 April 2020, surveying 805 Latvian residents aged 18 to 74 using a computer-assisted telephone interviewing method

Base: Respondents who have noticed Latvenergo as a donor in the particular direction; see 'n' in the chart
Average assessment on a scale from 1 (Very negative) to 4 (Very positive)

Total average assessment 2020 = 3,3 (2019 – 3,3; 2018 – 3,2)
(on a 4-point scale where 4 is the highest positive assessment)
